

**SAN DIEGO COOPERATIVE CHARTER SCHOOL
EXTENDED DAY PROGRAM
INFORMATION FOR FAMILIES WHO ARE FINANCIALLY CHALLENGED BY EDP FEES**

SDCCS does not receive any funding with which to operate its extended day program and therefore must charge fees for the services. We do however recognize that for some families those fees create a financial hardship and in light of this, reduced rates are available for qualifying families.

Any family seeking reduced EDP fees must submit a San Diego Unified School District Free & Reduced-Price Meal Application. Please submit your application at the beginning of each school year. You need only to complete one application listing each of your children enrolled at SDCCS. Those families who are determined by the district to qualify for free or reduced meals will automatically qualify for reduced EDP rates. If your application for free & reduced meals is rejected by the district, you may still qualify for reduced EDP rates under SDCCS's financial subsidy program. Please complete the SDCCS financial subsidy program application at the same time you do the district application and return both to the front office for processing.

The pricing for EDP services targets breakeven with all parents paying full value for their EDP services. The subsidized pricing must therefore be funded from general operating revenues. Failure to make timely and full payment takes additional funds away from the educational activities of the school. If you find yourself falling behind in payment of your EDP account, please contact the Business Manager to discuss arrangements to bring the account current. Please be advised that non-payment of EDP fees and a failure to make satisfactory arrangement to cure such delinquency may result in your son or daughter being ineligible to attend the EDP program. You would then be required to drop and pickup your child no more than one half hour before and after the beginning and end of the school day.

In order to reduce the financial burden of subsidized EDP pricing we ask that all families receiving this benefit actively seek agency funding. To that end, we ask that you visit <https://www.childcaresandiego.com/Default.asp> on the web. Our office staff will gladly assist you in doing this. If you are aware of other funding sources, please share them with the Business Manager.

Thank you for working with SDCCS to insure that EDP pays at least most of its own way and thereby helping us to continue to supply this valuable service to our students and parent bodies.

The current EDP pricing schedule is provided below.
